### About Capacity Building Programme(CBP)

The Capacity Building Programme on Research Methodology & Academic Writing aims to bolster the research skills and writing proficiency of academics and students. It focuses on enhancing understanding of diverse research methodologies, strengthening academic writing abilities, and promoting ethical practices within research. The program features a series of interactive workshops on qualitative and quantitative research methods, expert-led lectures, and hands-on sessions for practical experience in data analysis and academic writing. By participating in this program, attendees are expected to develop robust capabilities for conducting high-quality research, gain proficiency in crafting well-structured academic papers, and engage more effectively in scholarly discourse. Additionally, the program emphasizes the importance of maintaining ethical standards in research to ensure integrity and credibility in academic outputs.
