RFID

The Library has implemented RFID (Radio Frequency Identification) technology in the library. With this facility, books and other library materials can be tracked and managed more efficiently and accurately. RFID tags are affixed to the library books, allowing them to be easily scanned and located through an RFID reader. This eliminates the need for traditional barcode scanning, which can be time-consuming and prone to errors. With RFID technology the library has implemented self-checkout and self-return stations, freeing up staff time to focus on other tasks. Additionally, RFID enhance security by alerting library staff when an item has been taken without being properly checked out, helping to prevent theft and loss of materials.

Institutional Repository

The Library has set up an Institutional Repository (Digital Library) to enhance the accessibility of academic resources for its community members. This IR has been developed on Open Source Software DSpace to save money. This IR stores a range of documents including Thesis, dissertations, old question papers, syllabi, reports, News about the university and more. This IR can be accessed from inside as well outside of the university.

E-Library:

The Library has set up a e-library to provide access to millions of e-resources. This e-library provides access to millions of e-resources both open access and subscribed. The massive contents include access to 18371 e-books, 781269 e-theses/e-dissertation, 7000 e-newspapers/e-magazines, reports, 16026 audio books, 124019 video lectures/tutorials etc.

Remote Access

All the resource of the library is available on university internet and one can access these without any username and password. For the users who wish to access the resources from out of the university the library has been providing the remote access facility to users. To provide remote access the library is using MyLoft and Refread platform.

Library App

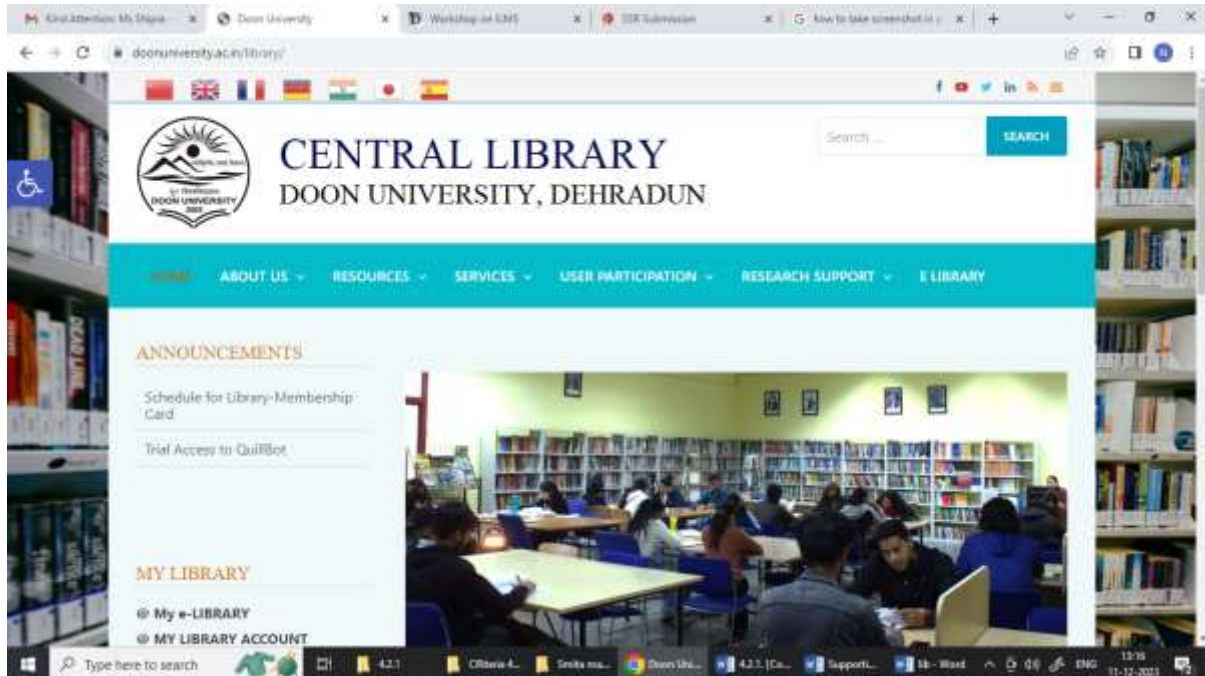

The library has extended its facility to mobile phone as well. Library is using mobile app to provide all the facility like library OPAC, access to e-resources, and access to institutional repository etc.

Wi-Fi

Wi-Fi facility in libraries has become a necessity for most patrons in the current digital age. With the widespread use of smartphones, laptops, and tablets, people need to remain connected to the internet. The Central Library is also providing Wi-Fi facility to its users to browse online resources, work remotely, research, and collaborate with others. It also provides access to digital collections, online databases, and e-books.

12. The Economics Times

The screenshot shows the 'Open Access' page of the Doon University Central Library. The page features a teal navigation bar with links for HOME, ABOUT US, SERVICES, USER PARTICIPATION, RESEARCH SUPPORT, and E LIBRARY. On the left, there are sections for ANNOUNCEMENTS (Schedule for Library-Membership Card, Trial Access to QuizBot) and MY LIBRARY (My e-LIBRARY, MY LIBRARY ACCOUNT, SEARCH BOOKS, NEW BOOKS ARRIVALS, PRINT JOURNALS). The main content area is titled 'Open Access' and includes an icon of an open book with a padlock. Below the icon, it states: 'Open Access Books' and 'DOAB is a searchable database of peer-reviewed scientific monographs that have been made accessible by academic publishers in open access. DOAB contains the metadata of 'free to share' e-books and provides direct links to the full text of the publications on the websites of the publishers. The collection covers all disciplines but focuses particularly on humanities, law and social sciences. All books in DOAB have a fully open access license, making them 'free to share'. The Directory of Open Access Books is a service of the OAPEN Foundation.'

The screenshot shows the 'Institutional Repositories' page of the Doon University Central Library. The page features a teal navigation bar with links for HOME, ABOUT US, SERVICES, USER PARTICIPATION, RESEARCH SUPPORT, and E LIBRARY. On the left, there are sections for ANNOUNCEMENTS (Schedule for Library-Membership Card, Trial Access to QuizBot) and MY LIBRARY (My e-LIBRARY, MY LIBRARY ACCOUNT, SEARCH BOOKS, NEW BOOKS ARRIVALS, PRINT JOURNALS, LIST OF E-JOURNALS, ANTI-PLAGIARISM SUPPORT, OLD QUESTION PAPERS, IJMS of the University). The main content area is titled 'Institutional Repositories' and includes an image of the Doon University building. Below the image, it states: 'The Central Library has initiated setting up a digital repository and archiving facility for the Doon University community. The Library is using the DSpace open source software for this purpose. This service enables the University to archive its in-house publications. At present, the Repository is in its initial stage, and the library is working on archiving the old question papers for the use of students. In the later stages, the library is planning to upload the Syllabus (course curriculum), Annual Reports, Dissertations of PG programs, and News about the University that appeared'.
